

General Terms and Conditions of Sale and Delivery

PrintConcept UV-Systeme GmbH

§1 General, Scope of Application

- (1) The following General Terms and Conditions of PrintConcept UV-Systeme GmbH will apply exclusively, any deviating terms by the customer will not be recognized unless PrintConcept UV-Systeme GmbH provides consent in writing. The General Business Terms and Conditions of PrintConcept UV-Systeme GmbH will also apply, if PrintConcept UV-Systeme GmbH provides the product or services unconditionally despite the knowledge of the customer's terms which deviate from or are contrary to the General Business Terms and Conditions. The General Business Terms and Conditions of PrintConcept UV-Systeme GmbH will also apply to future contracts with the customer.
- (2) All agreements regarding the delivery of products and services (hereinafter also synoptically referred to as "subject of the contract") between PrintConcept UV-Systeme GmbH and the customer are to be recorded in the present agreement and any possible supplementary agreements in writing.

§2 Offer and Conclusion of Transactions, Reservation of Right of Modification

- (1) If an order of the customer can be classified as an offer according to § 145 BGB (German Civil Code), PrintConcept UV-Systeme GmbH can accept this offer within four weeks after receipt. Offers by PrintConcept UV-Systeme GmbH will not be binding.
- (2) PrintConcept UV-Systeme GmbH shall reserve the right to make modifications to design, form or execution of the product. This does not apply, if the quality and merchantability of the product will be compromised or the variation is unreasonable for any other reason.
- (3) In the case a contract is agreed orally, the scope of PrintConcept UV-Systeme GmbH's performance is defined by a written affirmation of the contract sent by PrintConcept UV-Systeme GmbH.
- (4) PrintConcept UV-Systeme GmbH reserves the right to change design, form, and execution of the subject of the contract, insofar as the quality and usability of PrintConcept UV-Systeme GmbH's products and services are not compromised and the deviation is not unacceptable for other reasons.
- (5) If a contract is placed due to an estimate of the PrintConcept UV-Systeme GmbH, § 650 BGB applies.

§3 Supply and Performance Period, Delayed Delivery

- (1) Partial Performance is permissible and will oblige the customer to make a pro-rata payment unless partial performance would be unreasonable for the contract party.
- (2) In case PrintConcept UV-Systeme GmbH's performance as agreed in the contract is to be rendered upon request, the customer - unless otherwise agreed - shall be obliged to accept any partial performances of approximately similar amounts. Further, full performance as agreed shall be deemed requested by the customer one month after the agreed period for request has elapsed or if there is no such agreement, three calendar months after closing of the contract.
- (3) Performance periods designated by PrintConcept UV-Systeme GmbH are non-binding and subject to change unless otherwise agreed expressly and in written form.
- (4) The beginning of a delivery time given by PrintConcept UV-Systeme GmbH presupposes the clarification of all technical questions.
- (5) Compliance with the delivery obligation requires the timely and proper fulfillment of the obligation of the customer. The defence of lack of performance of the contract is reserved.
- (6) Delivery deadlines will have been met if the product has left the factory or if readiness for dispatch has been communicated.
- (7) Events of force majeure will entitle PrintConcept UV-Systeme GmbH to postpone the delivery of the product or the rendering of the service for the duration of the obstruction. Events of force majeure are events which completely prevent or unreasonably impede the provision of a product or service and which are not attributable to PrintConcept UV-Systeme GmbH, e.g. legal strikes or legal lockouts, war, import and export bans, energy and raw material shortages, official measures/facts, delayed supply of merchandises to PrintConcept UV-Systeme GmbH itself, for which it is not responsible. If the impairment lasts longer than two months, the customer will have the right to rescind the contract after the stipulation of a grace period if he can prove that a complete or part performance of the contract is no longer of relevance to him because of the delay.
- (8) PrintConcept UV-Systeme GmbH is liable - in accordance with the legal regulations - for a delay in delivery in so far as the delay is based on a breach of contract caused by PrintConcept UV-Systeme GmbH in an intentional or grossly negligent manner; a fault of the representatives and vicarious agents of PrintConcept UV-Systeme GmbH shall be attributed to this. In so far as the delay in delivery is not based on a breach of contract caused intentionally by PrintConcept UV-Systeme GmbH, the liability for compensation is limited to the foreseeable and typically occurring damage. Furthermore, PrintConcept UV-Systeme GmbH is liable in accordance with the legal regulations in so far as the delay caused by PrintConcept UV-Systeme GmbH is based on a culpable breach of a fundamental contractual obligation; in this case, however, the liability for compensation is limited to the foreseeable and typically occurring damage.
- (9) If the acceptance by the customer is delayed or if he violates any other of his cooperative duties culpably, PrintConcept UV-Systeme GmbH can claim compensation for the damages incurred, including any additional expenses. The risk of an accidental destruction or deterioration of the subject of the contract will pass to the customer on the date on which the customer delays the acceptance of the subject of the contract. If the shipment or delivery is delayed on customer's request for more than one month after notification of readiness for shipment, PrintConcept UV-Systeme GmbH may claim a storage fee of 0.5% of the sales price of the relevant products, for every month, but no more than 5% in total. Both Dr. Hönle and the client are entitled to proof of higher or lower storage cost.

§4 Prices, Terms of Payment, Delay, Set-off, Right of Retention

- (1) All prices charged by PrintConcept UV-Systeme GmbH will be ex works (PrintConcept UV-Systeme GmbH) without set up and installation plus the respective statutory turnover tax (German Vat), expenses for packing and return of packaging material will be charged separately. If the customer asks for delivery, the same applies for the delivery costs.
- (2) Price changes are permissible if the period between closing of the contract and the agreed time of performance exceeds six weeks. In case a price change is permissible, the following applies: In case wages, material cost, or cost prices on market conditions (catalogue prices) increase or exchange rates change prior to performance, PrintConcept UV-Systeme GmbH may reasonably adjust the prices according to the increase in costs.
- (3) Payment is due without deduction within 30 days after invoice date. Payment is in time, if the invoice amount is credited to PrintConcept UV-Systeme GmbH's bank account indicated on the invoice. If the customer does not pay the invoice amount within the aforementioned period, the customer falls in default without demand. Further claims for damages remain unaffected.
- (4) PrintConcept UV-Systeme GmbH reserves the right to demand advance payments.
- (5) In cases in which - after closing of the contract - doubts arise regarding the customer's ability to pay PrintConcept UV-Systeme GmbH's claims or his creditworthiness PrintConcept UV-Systeme GmbH is entitled to render performance only after the customer's performance or versus collateral in the form of a directly enforceable, irrevocable guarantee from a German major bank. In case the contractual partner does not comply with this request even after fixing a time period for performance including a notice of the intention to rescind the contract after the set period of time, PrintConcept UV-Systeme GmbH may rescind the contract, excluding any rights for compensation of contract party.
- (6) The customer will only be entitled to a setoff, if his counterclaim is res judicata, uncontested or recognized by PrintConcept UV-Systeme GmbH.
- (7) The customer will only be entitled to retention, if his counterclaim is res judicata, uncontested or recognised by PrintConcept UV-Systeme GmbH.

§5 Customer's Responsibilities, acceptance

- (1) The customer must make available to PrintConcept UV-Systeme GmbH all documents required for the performance of the subject of the contract free of cost and in a timely manner. PrintConcept UV-Systeme GmbH is not obliged to check the content of the documents made available by the customer as well as such designated requirements (specifications, functions, and technical details) for potential flaws or infringements of third party rights following the implementation of the specified requirements, unless otherwise agreed expressly.
- (2) Insofar as the customer renders own services or services are rendered by third parties (including the delivery of goods) the contract party is responsible for the co-ordination of the individual work processes as well as the compliance with applicable safety regulations and provisions for prevention of accidents.
- (3) In case the contract party does not render his co-operation duties to the required extent or PrintConcept UV-Systeme GmbH is inhibited in rendering the agreed due to circumstances within the contacting partner's risk, PrintConcept UV-Systeme GmbH is exempt from the performance obligations for the duration of the impediment and to the extent of its impact and may ask for reasonable compensation for any additional costs incurred hereby. PrintConcept UV-Systeme GmbH in that case will set off any expenses saved or amounts received from other orders. The risk of accidental loss or accidental deterioration of the contractual services is transferred to the contract party at the time he is in default with accepting delivery.
- (4) If PrintConcept UV-Systeme GmbH is obliged to perform work (Werkleistung) or to supply labour and materials (Werklieferung), the customer is obliged to conduct a formal acceptance, within two weeks from the transfer of risk (see. § 6). If this does not happen, the acceptance shall be deemed to have occurred (acceptance fiction). Acceptance fiction is also deemed if the subject of contract - possibly after completion of an agreed test phase- has been put to use.

§6 Passing of risk, Transport insurance

- (1) Deliveries by PrintConcept UV-Systeme GmbH will be ex works (PrintConcept UV-Systeme GmbH) - Incoterms 2010/EXW. The risk will pass to the customer when the product is handed over to the carrier (that is, the person performing the transport) for transport; this will also apply in the case of transport by PrintConcept UV-Systeme GmbH itself.
- (2) If the products are dispatched, PrintConcept UV-Systeme GmbH will conclude a transport insurance contract for the benefit of the customer at the latter's request and expense. Any damage incurred during transport must be reported immediately in writing to PrintConcept UV-Systeme GmbH and to the forwarding agent transporting the goods.

§7 Guarantee of Retention of Title

- (1) PrintConcept UV-Systeme GmbH will retain title to the products until all payments under the entire business connection have been received. In the case of violation of the contractual obligations by the customer, in particular in case of delayed payment, PrintConcept UV-Systeme GmbH will have the right to repossess the products. The repossession of the products by PrintConcept UV-Systeme GmbH will constitute a rescission of the agreement. After return of the products, PrintConcept UV-Systeme GmbH is authorised to utilise them, and the proceeds from utilisation shall be credited against the liabilities of the customer - minus appropriate utilisation costs.
- (2) The customer must handle the products with due care; in particular, he must adequately insure them at his own expense against damage by fire, water or theft at their replacement value. If maintenance and inspection work is necessary, it must be carried out at the customer's own expense.
- (3) In the case of pledgings or similar acts by third parties, the customer must inform PrintConcept UV-Systeme GmbH immediately in writing so that PrintConcept UV-Systeme GmbH can bring a legal action as provided for in § 771 ZPO. If the third party is not able to reimburse PrintConcept UV-Systeme GmbH for court and extrajudicial costs of the legal action as provided for in § 771 ZPO, the customer will be liable for the loss incurred by PrintConcept UV-Systeme GmbH.
- (4) The customer is entitled to the products in an orderly business transaction; however, the customer already assigns at this point all receivables amounting to the final sum of the invoice (including VAT) of the receivable of PrintConcept UV-Systeme GmbH that he

- gains from the re-sale to his customer or third parties. This is the case irrespective of whether the contractual object was resold without or after processing. The customer remains authorised to collect this receivable even after assignment of the receivable. The authorisation of PrintConcept UV-Systeme GmbH to collect this receivable itself, remains unaffected by this. However, PrintConcept UV-Systeme GmbH undertakes not to collect this receivable as long as the customer meets payment obligations from the revenues collected, does not have any payment arrears and in particular has not applied for composition or bankruptcy proceedings or if payment has been stopped. However, if this is the case, PrintConcept UV-Systeme GmbH can request that the customer of PrintConcept UV-Systeme GmbH reveals the assigned receivables and their debtors, provides all information required for collection, hands over the corresponding documents and informs the debtors (third parties) of the assignment.
- (5) The processing or alteration of the product by the customer will be done for PrintConcept UV-Systeme GmbH at all times. If the product is processed with other objects that do not belong to PrintConcept UV-Systeme GmbH, PrintConcept UV-Systeme GmbH acquires the co-ownership of the new object in the ratio of the value of the contractual object (final invoice amount, including VAT) to the other processed objects at the time of processing. For the rest, the same applies to the object, created by processing, as for the product supplied under reservation.
 - (6) If the product is inseparably mixed with other objects that do not belong to PrintConcept UV-Systeme GmbH, PrintConcept UV-Systeme GmbH acquires the co-ownership of the new object in the ratio of the value of the contractual object (final invoice amount, including VAT) to the other mixed objects at the time of mixing. If the mixing is done in such a way that the object of the customer may be viewed as the main object, it is agreed that the customer will transfer a pro-rata co-ownership to PrintConcept UV-Systeme GmbH. The customer is the custodian of the sole or co-ownership created in this way for PrintConcept UV-Systeme GmbH.
 - (7) The customer also assigns to PrintConcept UV-Systeme GmbH the receivables for securing the receivables against the customer attributed to PrintConcept UV-Systeme GmbH that the customer acquires through the combination of the product with a plot of land vis-à-vis a third party.
 - (8) PrintConcept UV-Systeme GmbH undertakes to release the securities attributed to PrintConcept UV-Systeme GmbH at the request of the customer in so far as the realisable value of the securities of PrintConcept UV-Systeme GmbH exceeds the receivables to be secured by more than 10%; the selection of the securities to be released is the responsibility of PrintConcept UV-Systeme GmbH.

§8 Liability for defects

- (1) The prerequisite for the customer's warranty rights is that the latter has properly complied with his inspection and complaint duties according to § 377 HGB (German Commercial Code).
- (2) In so far as there is a defect of the subject of the contract, the customer at the discretion of PrintConcept UV-Systeme GmbH has a claim to post-fulfillment in the form of correction of the defect or to the delivery of a new subject of the contract that is free of defects. In this case PrintConcept UV-Systeme GmbH has the choice to fulfil its obligation by eliminating the defect or replacing the subject of the contract. In the case of an entrepreneur recourse according to § 478 BGB contrary to sentence 1, the customer is entitled to choose. In the event of defect correction, PrintConcept UV-Systeme GmbH undertakes to bear all the necessary expenses, in particular, transport costs, costs of passage, work and material costs, for the purpose of correcting the defect; in so far as these are not increased by the fact that the subject of the contract has been brought to another location as the place of performance.
- (3) If the post-fulfillment fails, the customer is entitled at its own discretion to demand a withdrawal or price reduction.
- (4) PrintConcept UV-Systeme GmbH is liable in accordance with the legal regulations, in so far as the customer asserts claims for compensation that are based on intention or gross negligence, including the intention or gross negligence of the representatives or vicarious agents of PrintConcept UV-Systeme GmbH. In so far as PrintConcept UV-Systeme GmbH is not guilty of any intentional breach of contract, the liability for compensation is limited to the foreseeable and typically occurring damage.
- (5) PrintConcept UV-Systeme GmbH is liable in accordance with the legal regulations in so far as PrintConcept UV-Systeme GmbH commits a culpable breach of a fundamental contractual obligation; in this case, however, the liability for compensation is limited to the foreseeable and typically occurring damage.
- (6) The liability for culpable injury of life, body or health remains unaffected by this; this also applies to mandatory liability in accordance with the product liability act.
- (7) Unless otherwise stipulated above, liability is excluded.
- (8) The limitation period for defect claims is 12 months, calculated from transfer of risk. This does not apply if the respective defect is caused by a product, which is commonly used for buildings.
- (9) In the event of an entrepreneur recourse in accordance with §§ 478, 479 BGB (German Civil Code), the legal limitation period applies.

§9 Overall liability

- (1) A liability for compensation that exceeds that provided for in § 8 is excluded, without consideration of the legal nature of the claim made. This applies in particular to compensation claims resulting from defaults on the conclusion of the contract, due to other breaches of obligations or due to tortious claims for compensation of material loss in accordance with § 823 BGB (German Civil Code).
- (2) The limitation under aforementioned subparagraph (1) also applies, if the customer claims replacement of frustrated expenses instead of compensation.
- (3) In so far as the liability for compensation of PrintConcept UV-Systeme GmbH is excluded or limited in relation to the customer, this also applies with regard to personal liability for compensation of PrintConcept UV-Systeme GmbH's staff, workers, employees, representatives and vicarious agents.

§10 Intellectual Property

- (1) Offering material, cost estimates, drafts, drawings, and calculations ("Documents") shall remain the sole property of PrintConcept UV-Systeme GmbH and may not be copied or made available to third parties without PrintConcept UV-Systeme GmbH's written consent. If a contract is not closed, PrintConcept UV-Systeme GmbH's Documents must be returned immediately and complete and potential copies made must be destroyed.
- (2) In case inventions are made by PrintConcept UV-Systeme GmbH within the scope of the business relationship, PrintConcept UV-Systeme GmbH shall solely be entitled to make use of the rights deriving therefrom, especially of patents.

§11 Seller liability according to the electrics law, Dodd-Frank-Act

- (1) Except for intention or gross negligence on the part of PrintConcept UV-Systeme GmbH, its organs as well as workers, staff and employees of PrintConcept UV-Systeme GmbH, PrintConcept UV-Systeme GmbH assumes no liability if products acquired from third parties contain substances in concentrations or applications whose bringing into circulation after 01.07.2006 is forbidden in accordance with the law on the bringing into circulation, the return and environmentally-friendly disposal of electric and electronic appliances ("ElektroG") in its currently valid version. The aforementioned regulation also applies if the products acquired were processed or refined or altered by PrintConcept UV-Systeme GmbH before they were sold to the customer. In so far as a claim of PrintConcept UV-Systeme GmbH is eliminated by the aforementioned regulation, PrintConcept UV-Systeme GmbH herewith cedes any claims of PrintConcept UV-Systeme GmbH vis-à-vis the third party to the customer.
- (2) PrintConcept UV-Systeme GmbH strives to keep all products, manufactured by PrintConcept UV-Systeme GmbH, free of conflict minerals as defined by the current version of the Dodd-Frank Act (antimony, tin, tungsten and gold from the DR Congo or the neighbouring countries). Therefore, it is PrintConcept UV-Systeme GmbH's goal, to pledge PrintConcept UV-Systeme GmbH's suppliers that their goods do not contain any of the aforementioned conflict materials likewise. However the assumption of a warranty obligation or any liability of PrintConcept UV-Systeme GmbH for material used by PrintConcept UV-Systeme GmbH's suppliers or their sub suppliers are hereby excluded to the extent permissible.

§12 Miscellaneous

- (1) In so far as the customer is a merchant, the registered office of PrintConcept UV-Systeme GmbH is the place of jurisdiction; however, PrintConcept UV-Systeme GmbH is entitled to sue the customer at the latter's place of jurisdiction.
- (2) In so far as the order confirmation does not indicate otherwise, the registered office of PrintConcept UV-Systeme GmbH is the place of performance.
- (3) The law of the Federal Republic of Germany applies. The application of the UN Convention on the International Sale of Goods (CISG) is excluded.
- (4) The customer himself ensures that the relevant foreign trade regulations are adhered to.
- (5) Reference is made to the fact that customers must observe the currently valid ICAO/IATO regulations if they ship the products purchased from PrintConcept UV-Systeme GmbH (shipment to third parties or return shipment to PrintConcept UV-Systeme GmbH).
- (6) This English language version of the General Terms and Conditions of Sale and Delivery of PrintConcept UV-Systeme GmbH is a translation of the original German language version of the General Terms and Conditions of Sale and Delivery of PrintConcept UV-Systeme GmbH ("Allgemeine Verkaufs- und Lieferbedingungen PrintConcept UV-Systeme GmbH"). If there are any contradictions or inconsistencies between the original German language version and this translation, the German language version shall prevail.
